direct light

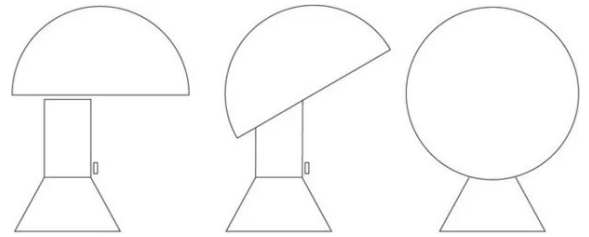

indirect light

Table lamp indirect light. Adjustable reflector with inside screen made of aluminium painted in white. Painted ABS moulded structure. The lamp consist of a section of cone base and an adjustable diffuser dome-shaped.

Designed by Elio Martinelli in 1976, Elmetto even though in the design rigour, focuses on the functionality of the use with a large switch in the central body, easy to find in the dark and an adjustable reflector simple to move by the touch of a finger and it allows to shield the light source. A reliable friend, a companion of the evening.
