230V 104 W 5370 lm

diffuse light

Thanks to the Tunable White LED (dynamic white) technology, the Biconica Pol lamp can reproduce the natural course of daylight by the possibility of modulating the color temperature of the LED light sources.

Using the Casambi app, users can "tune" the color of white as needed or desired to values between 2500 K and 6700 K, enhancing the most subtles tonalities and improving the quality of perception. They can achieve high-quality color yield (Ra 90) without altering the colors. The lighting control app makes it possible to quickly and precisely set and modulate the color from Android or Apple smartphones or tablets.

Standing lamp, diffused light, for outdoor use. Structure in rotomolded white polyethylene material.

White or RGB LED light source. Complete with dimmable power adapters with cable and plug for outdoor use. Protection rating: IP65.

Dimensions

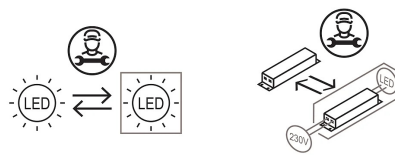

Height 195 cm
 Diameter 38 cm
 Power supply cable length 50+250 cm
 Weight 12.4 Kg

Materials

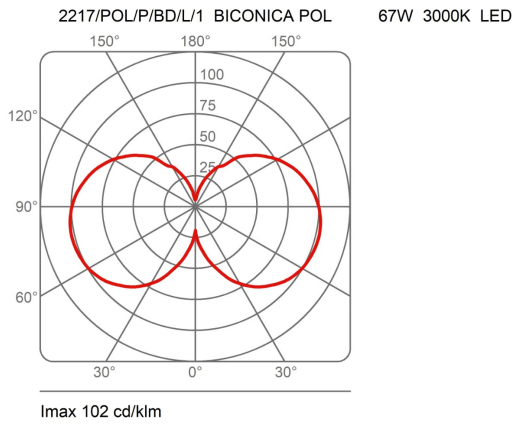

Structure polyethylene Base iron

Voltage	230V	Watt	104 W
Power unit	Included	Lumen	5370 lm
Mounting Power Supply	Indoor	CRI	>80
		Duration	50000 h
Power supply	Electronic dimmable power supply	CCT	3000 K
Dimming	Remote control	Energy class	F
