diffuse light

Pistillo Outdoor is a suspended lamp designed for outdoor use that offers an even spread of light. Ideal for summer evenings with friends, it creates the perfect atmosphere for important conversations or complete relaxation.

Made with a white opal methacrylate structure and black-painted details, it has a practical hook for hanging wherever you wish. An optional extra can be added: a painted aluminium screen (code 30812/NE) compatible with the 2064/P/XS lamp. The cable, 5 meters long and colored orange, adds a fun touch. Complete with electronic ballast, Pistillo Outdoor is ready for use.

Protection degree IP65 device - IP44 plug
