diffuse light

Table lamp diffused light. Metal chrome structure, white opal methacrylate diffuser, with lower diffuser satin methacrylate.

Result of the collaboration of Marc Sadler and Elio Martinelli, the lamp, produced in 2003, reveals its secret color projecting it on the curvature of the base. A splash of color obtained from the distorted reflection of the lower circular diffuser, as in a small mirror's room.

Family	Mico
Typology	Table
Utilisation	Indoor

Dimensions

Height	60 cm
Diameter	55 cm
Power supply cable length	40+200 cm
Weight	6.7 Kg
