230V   10x 5 W 440 lm (4400lm )

diffuse light

Chain of hanging lights for outdoor use comprised of 10 light points fixed at a distance of 100 cm one from the other on the electrical cable.

Cable length of 15 m for 10 light points.

The support is molded in resin and rubber, black, and cabled for LED bulbs. The diffuser is in rotomolded polyethylene.

At the ends of the cable are 2 hooks to hang the chain.

The Kiki lamp allows illuminating a garden and open spaces in order to enjoy them also at night, creating light effects, functional corners and lighted paths, for a pleasant living experience.

Degree of protection: IP44 plug, IP65 device
