230V    3x 15 W 440 lm (1320lm )

diffuse light

Chain of hanging lights for outdoor use comprised of 3 light points fixed at a distance of 100 cm one from the other on the electrical cable.

Cable length of 8 m for 3 light points.

The support is molded in resin and rubber, black, and cabled for LED bulbs. The diffuser is in rotomolded polyethylene.

At the ends of the cable are 2 hooks to hang the chain.

The Kiki lamp allows illuminating a garden and open spaces in order to enjoy them also at night, creating light effects, functional corners and lighted paths, for a pleasant living experience.

Degree of protection: IP44 plug, IP65 device
