 Utilisation Indoor

24/230V 8 W 340 lm

direct light

Metrica in the table version is characterised by a polished body with a height of 28 cm resting on a polished circular base. The lamp is completed by a leather strap positioned at its end to extract the light source. The light source, which is 20 cm long, is hidden inside the support that forms the base and lights up as soon as it is extracted, gradually increasing in intensity until it reaches its maximum position. Metrica table lamp can be used on a desk to illuminate with a diffuse and soft light its own workstation or on tables of all kinds.
