diffuse light

CURVO MODULE with a 30° angle (radius 175cm) to create a modular system with diffused light suspension or ceiling.

The system is composed by curved (code **40135** - 40020 - 40021 - 40053) and linear (code 40022) modules, rotational moulded, white polyethylene material. The combination of modules, through aluminium joints (code 40026/BI intermediate joint with cable - code 40027/BI terminal joint with cable or 40047/BI intermediate joint with support to fix to the ceiling - 40048/BI terminal joint with support to fix to the ceiling), allows you to create linear paths, sinuous or circular paths of Ø 70cm (4 curved modules 40053), Ø 95cm (3 curved modules 40021), Ø 180cm (6 curved modules 40020), and Ø 350cm (12 curved modules 40135). LED light source integrated. Drivers inserted into the canopy (code 40025/BI - 40025/DIM/BI) or into the false ceiling. Dimmable Push/Dali, POT. 10K Ω , 0-10V, 1-10V.
