

Light Module Colibrì Magnetic

2 modules

Emiliana Martinelli

colors

Typology Pendant Wall Ceiling
Utilisation Indoor

24V 2x 13 W 2140 lm (4280lm)

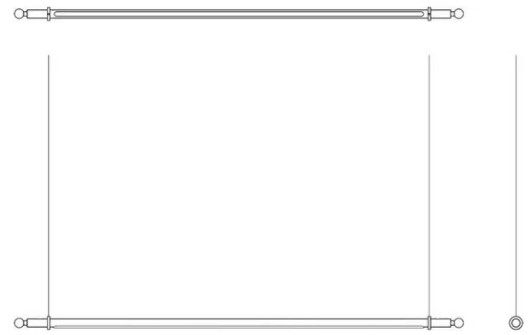

Modular System with swivel tubular modules, for LED light source. A spherical magnet joint allows Colibrì to be tilted at different angles, creating various configurations in the space it is placed in. Colibrì can be hung as single modules or joined through a power cable having 1/2/3 continuous modules. These can then be connected to the remote driver or placed inside the canopy. The color given by the iridescent radiant film exalts its dynamic characteristics (optional).

Dimmable driver on request

Family	Light module Colibri Magnetic
Typology	Pendant Wall Ceiling
Utilisation	Indoor

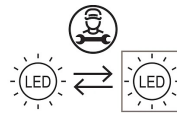

**Dimensions**

Lunghezza	137 x 2 cm
Diameter	2,5 cm
Power supply cable length	400 cm
Weight	3.1 Kg

Materials

Structure	aluminium	Diffuser	methacrylate O40
-----------	-----------	----------	------------------

Voltage	24V	2 X Watt	13 W
Power unit	Excluded	Lumen	2140 lm (4280 lm)
Mounting Power Supply	External	CRI	>80
		Duration	50000 h
		CCT	3000 K
		Energy class	D
