colors

230V 114 W

diffuse light

Equipped with RGB technology, the Biconica Pol lamp is able to change the color of the light according to your preferences, giving the environment always different atmospheres. Depending on the needs or requirements, the user can change the emission color at will through the CASAMBI application, which allows you to reproduce the entire color range including white. The Casambi application, rich in functions, but easy to use, is available both for devices with an Android operating system and for devices with an iOS (Apple) operating system.

Floor lamp with diffused light for outdoor, rotationally molded structure, white polyethylene material. RGB LED light source. Complete with dimmable power supplies via bluetooth technology. Degree of protection: IP65
